

ENVIRONMENTAL POLICY

Our Vision for the Environment

G.W.Martin & Co Ltd is dedicated to sustainable development through protecting human health, natural resources, and the global environment. Our vision for the environment is to minimise any adverse impact of our activities through the prevention of pollution and to achieve continual improvements in our environmental performance in line with commercial aims.

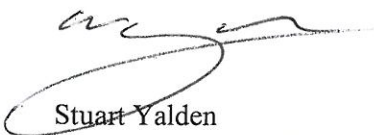

Our Policy Commitments

G.W.Martin & Co Ltd is committed to:

- Managing business processes that have the potential to impact significantly on the environment in accordance with the requirements of BS EN ISO14001:2015
- Complying with regulatory and any other relevant requirements and identifying new areas where we can improve our environmental performance, focussing our efforts on those activities with the most significant impacts.
- Preventing and reducing pollution.
- Minimising waste by **reducing** unnecessary material usage, maximising **reuse** of materials, and maximising the amount of waste material that is **recycled**.
- Investing in environmentally friendly and sustainable products and services whenever practical, and using our influence to promote the same to our suppliers and subcontractors.
- Assessing our use of natural resources, the direct impacts associated with our production and office activities and the indirect impacts associated with our procurement processes.
- Setting and reviewing objectives and targets for improved environmental performance with an aim of continual improvement.
- Providing our team with training and awareness in support of our policy commitments and vision for the environment.

G.W.Martin & Co Ltd recognise that the significant areas of impact of our activities are: -

- Raw material usage
- Solid and liquid waste management (including machining residues)
- Energy and Water usage
- Control of the working environment (emissions, noise, vibration etc)
- Pollution (emissions to air, land and water)
